

JUZOR

Engineering Solutions

WHO WE ARE

JUZOR stands at the intersection of technical precision & creative innovation.

• FULL-SERVICE ENGINEERING

We provide comprehensive, end-to-end building solutions that seamlessly integrate Architecture, Urban Planning, Civil Engineering, MEP, and Project Management from inception to final delivery.

• TEAM EXCELLENCE

A unified, multidisciplinary team of consultants and engineers brings together over 100 years of experience, ensuring synergy of expertise across every project phase.

• GLOBAL EXPERIENCE

We adhere to rigorous global technical and safety benchmarks, leveraging extensive regional experience across Egypt and the Gulf area to deliver projects that meet the highest international standards.

OUR VISION

To be the preferred international partner for sustainable & innovative engineering solutions.

GLOBAL EXCELLENCE

Setting new benchmarks in construction quality and architectural design on an international scale.

INNOVATION DRIVEN

Leveraging cutting-edge technology & AI-driven design to solve modern engineering challenges.

SUSTAINABLE IMPACT

Creating structures that harmonize with the environment and serve future generations.

OUR MISSION

Empowering clients through comprehensive, high-quality, and cost-effective engineering services.

PRECISION ENGINEERING

Meeting technical and safety standards through careful design and oversight.

CLIENT-CENTRIC APPROACH

Tailoring consultation and implementation to specific project goals.

OPERATIONAL EFFICIENCY

Streamlining management to deliver on time and within budget.

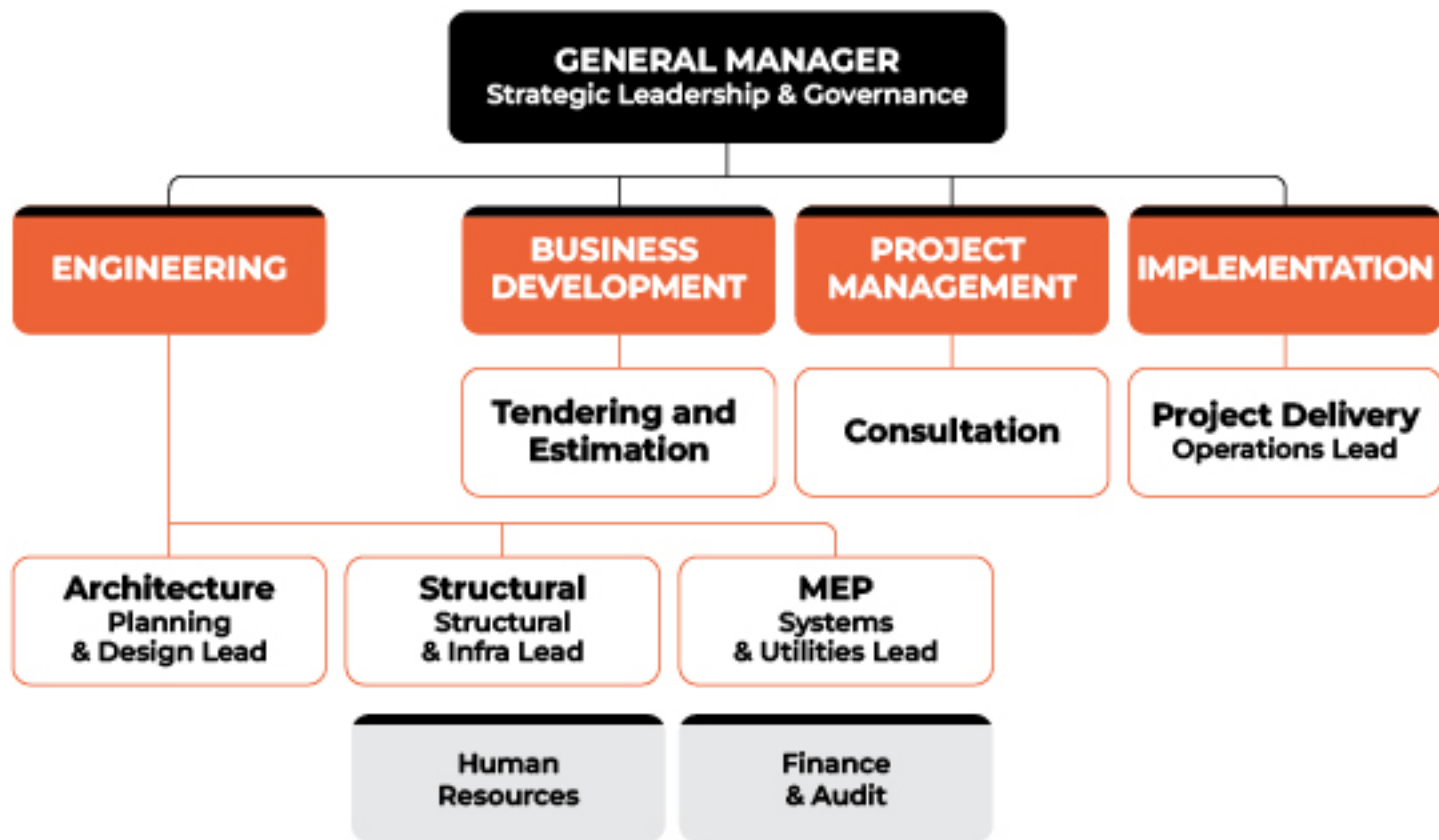

COLLABORATIVE CULTURE

Fostering cross-disciplinary collaboration across our teams.

ORGANIZATIONAL STRUCTURE

A Synergy of Specialized Departments

ARCHITECTURE & PLANNING

Our Architectural designs prioritize aesthetic brilliance without compromising structural utility.

URBAN PLANNING

Designing sustainable communities and functional urban spaces that enhance the quality of life.

ARCHITECTURAL DESIGN

Creating iconic structures with a focus on modern international styles and innovative materials.

BIM COORDINATION

Implementing BIM coordination across multi-disciplines through different phases of the project.

FEASIBILITY STUDIES

Providing data-driven insights and technical analysis during the initial planning phase.

STRUCTURAL ENGINEERING

Integrating robust
Structural engineering
systems.

Ensuring structural integrity
through advanced analysis and
material science.

- Structural Analysis & Design
- Foundation Engineering
- Heavy Construction Oversight
- Steel Structure
- Concrete Structure
- Infrastructure Durability

MEP ENGINEERING

Advanced MEP systems
for high-performance buildings.

MEP Systems

Comprehensive Mechanical, Electrical, and Plumbing
solutions for modern facilities.

- ↑ HVAC & Climate Control
- ↑ Power Distribution Systems
- ↑ Low Current Systems
- ↑ Fine Systems
- ↑ Advanced Piping & Plumbing
- ↑ Fire Fighting Systems
- ↑ Energy Efficiency Optimization

PROJECT MANAGEMENT & CONSULTATION

Our rigorous management framework guarantees project success from inception to handover.

STRATEGIC CONSULTATION

Expert advice on project viability, risk assessment, and resource allocation to ensure a solid foundation.

IMPLEMENTATION OVERSIGHT

On-site management to ensure strict compliance with design specifications and international standards.

QUALITY ASSURANCE

Continuous monitoring & rigorous testing to uphold the highest levels of construction integrity.

QUALITY & SUSTAINABILITY

Safety and quality are non-negotiable pillars of our corporate identity.

HSE EXCELLENCE

Adhering to international Health, Safety, & Environment protocols to ensure a zero-harm workplace.

QUALITY CONTROL

Implementing rigorous quality management systems across all departments to meet global benchmarks.

GREEN BUILDING

Promoting LEED-certified practices and sustainable material sourcing for a better future.

CONTINUOUS IMPROVEMENT

Investing in R&D and BIM technology to stay at the forefront of engineering innovation.

PROJECTS

LOGISTICS AND INDUSTRIAL

Logistic hubs
Factories
Industrial warehouses

RESIDENTIAL BUILDINGS

Apartment buildings
Private villas
Beach houses
Interior design

HEALTHCARE FACILITIES

Public hospitals
College hospitals
Medical centers
Clinics

URBAN PLANNING

Mixed-use compounds
Housing complexes
Beach resorts
Landscape
Urban design

EDUCATIONAL SERVICES

Schools
Universities campus

PUBLIC BUILDINGS

Transportation terminals
Administrative headquarters
Entertainment centers

COMPOUND BORG EL-ARAB

The project is part of the residential expansion of the New Urban Communities Authority under the Ministry of Housing in Egypt.

Spanning 85 feddans, the compound features varied topography and multi-level apartment buildings, with landscaped green terraces and retaining stone walls that balance elevation changes across the site.

MASTER PLAN

PLANNING

DAMANHOR CITY' SQUARES

The project is for Damanhor city's municipality, the Egyptian government.

The project include widening the main streets of Damanhor, and urban planning and design of the city's main squares, streets, & sidewalks.

KING HILLS COMPOUND

KING MARIOT, ALEXANDRIA

The 15-feddan compound features varied topography with elevation changes up to 7.5 m, creating diverse views and platforms while preserving the skyline.

The design organizes the site into three levels, forming distinct clusters of apartment buildings, twin houses, and villas.

TANNERY CHEMICAL FACTORY

QUEEN SERVICE HEADQUARTER

QUEEN SERVICE

DIYARNA RESIDENCE 2025

Residential compounds of New Urban Communities Authority, Ministry of housing and urban development in Egypt.

MEP COORDINATION

WHY CHOOSE US

Partnering with JUZOR means choosing reliability, innovation, and technical mastery.

01

INTEGRATED EXPERTISE

A one-stop shop for all engineering & construction needs, ensuring seamless coordination across Architecture, MEP, & Civil disciplines.

03

PROVEN METHODOLOGY

A systematic approach to consultation and implementation that guarantees project success from inception to final handover.

02

INTERNATIONAL STANDARDS

Delivering projects that compete on a global scale by adhering to rigorous international technical and safety benchmarks.

04

FUTURE READY

Embracing BIM (Building Information Modeling) and AI-driven design tools to stay at the forefront of engineering technology.

LET'S BUILD THE
FUTURE *Together*
